Letter to Garfield Decries Gardner's Statement About Unpreparedness.

MANY NEW SHIPS ADDED

Secretary States Department Is Recruited to Its Full Strength-Adds Aviation Bureau.

Secretary of the Navy Daniels yesterday made public a lengthy review of his The variety of choice is well night two years administration of the Navy De-endless. Here are hundreds of suits in partment, defending the navy from the partment, defending the navy from the battery, he has been given an order in the presence of some of the highest charge, frequently made in the last eight for two—one to be put into an old dignitaries of that church in America, months, that it was not properly presented for two—one battery does not the Archdiocesan Union of Holy Name unfinished worsteds, and cassimeres in pared for war.

The Secretary's statement is in the

stripes, and pin stripes, and elegant basket weave, herringbone and plain esentative Gardner, of Massachusetts, alleging that the United States is at present unprepared for military emer-

"Epoch Making" Period.

Mr. Daniels declares that the last two years have been epoch making in the navy, distinguished by more wise and orance, and for second orange of the constant of the constant

material and personnel than with matters of organization, which most of the expert critics of the navy have declared to be the chief cause of its unpreparedness for war. Rear Admiral Bradley A. Fiske, aid for operations, gave greatest currency to this idea in his testimony before the House Naval Committee, asserting that it could require five vears to prepare the navy parts. We have equipped or are equipped on the could be propared to the nave of the propagate that the could require five vears to prepare the navy parts for the could be built in only two navy parts for the could be propagated to the could be built in only two navy parts for the could be propagated to the could be built in only two navy parts for the could be propagated to the could be built in only two navy parts for the could be publicated to the could be built in only two navy parts for the could be publicated to the could be publicated to the could be built in only two navy parts for the could be publicated to the could be publicated to

Gain of Thirty-six Ships.

Mr. Daniels says: fully commissioned, 225 vessels of all on armor plate and projectiles by compeling competitive bidding among the pelling competitive bidding among the ma-There are now in active service. The day was not only the hottest of this year, but was nearly twice as warm as April 25 of last year, when the thermometer registered 54 departments of the thermometer registered 54 departments. The day was not only the hottest than were fully commissioned when I became Secretary. There are also 101 vessels of various types, in reserve and in ordinary and uncommissioned, capable of rendering service in war. We have under construction and authorized And no hope is held out for tomor-row, which the weather man believes will "continue to be warm," or even warmer." thirty-eight submarines, and seven The day was a profitable period for resort proprietors and the transportation utilities. An exodus for parks, woods, suburbs, and places of opening amusement was begun early in the morning and continued through the afternoon.

Thirty-eight submarines, and seven auxiliaries, as compared with fifty-four vessels, five Dreadnoughts, fourteen destroyers, twenty-three submarines, three gunboats, and nine auxiliaries which were under construction on March 1, 1913.

"All the vessels course."

norming and continued through the ifternoon.

Dusk descended, and still the fleenen inhabitants bad not returned to heir homes. When the first breezes faight had begun to blow the city can to assume a normal population.

March 1, 1913.

"All the vessels enumerated are supplied with munitions of war. No navy makes public the quantity of ammunition and torpedoes, mines and other implements of naval warfare which it keeps ready. It may be said however. Argo News in New Form.

The first number of the new and improved Argo News, a monthly publication devoted to the interests of the Independent Order of Bruai Brith, and particularly those of Argo Lodge, No. II, of this city, has just made its appearance. Filled with news of the lodge and its members, it is a model typogradically, the first number being addinced with the pictures of a dozen of Washington's well-known business and professional men. The publication is a credit to its staff, which is composed of Rabii A. Simon, Ph. D., editor-in-chief; Sol Herzog, editor, and A. Brand, business manager.

The chitorial office is located at 672 keeps ready. It may be said, however, that within the last two years the

Recruited to Full Strength. Mr. Daniels calls attention to the fact that the navy is now recruited up to its full strength, and that there up to its full strength, and that there are 12 per cent more men on duty with it now than in March, 1913. He asserts that there is not an officer in the navy who could or would say that his ship is not as good or its crew as loyal and efficient as two years ago. With reference to the charge that the keeping of the battleships in Mexican waters impaired the efficiency of the fleet. Mr. Daniels, declares, that at fleet. Mr. Daniels declares that a Nera Cruz the fleet got real experi-ence under virtually war conditions. He call attention to the fact that after years of talk, actual advanced base maneuvers were held for the first time

in January, 1914. Without referring to the fact that be Democrats controlled the House of Representatives during the last two terstate Commerce Commission years of the Taft administration, Mr. evening addressed the congregations

During the first two years of the Wilson administration, upon my recommendation, Congress authorized the construction of five Dreadnoughts, to cost about \$14,000,000 each. The Wilson administration, in its first two years, authorized \$70,000,000 to be spent on the chief fighting force of

AGIN I REITERATES,

the navy, as against \$26,000,000 au-thorized during the last two years of Taft's; it authorized five Dreadnoughts instead of two and stated in effective ess the five Dreadnoughts authorize ness the five Dreadnoughts authorized under Wilson will mount thirty-six more 14-inch guns than the two auorized under Mr. Taft.

Edison Working on Battery. "As to submarines, the Sixty-third my recommendation to give us all the money it could for submarines. It ordered the construction of three seagoing submarines, the largest ever authorized by any country, and twenty-three submarines of the same size

submarines were authorized. Nobody has yet perfected a satisfactory engine or satisfactory battery for submarines.
"Upon my invitation, Mr. Edison last
year went down into a submarine and losely studied its every feature. He thinks he has a battery that will meet the need. Our tests at the Brooklyn Navy Yard cause us to believe Mr. Edison has the right principle. With-out waiting for the completion of his submarine which I have ordered built convention at the Portsmouth (N. H.) Navy Yard.
